-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-21 are pending in the application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

1. Claim 14 is rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The process of preparing pentostatin from pentostatin aglycone is not described in the specification.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter, which the applicant regards as his invention.

2. Claims 1-21 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following reasons apply:
 - a) Claims 1-17 are vague and indefinite in that it is not known what is meant by "analog", "aglycone" and "aglycone analog" of pentostatin, which implies more than what is positively recited.

- b) Claims 1-14 and 17 are vague and indefinite in that it is not known what is meant by succinonitrile "derivative" which implies more than what is positively recited.
- c) Claim 10 is vague and indefinite in that it is not known what is meant by the second definition of R, which is different than the definition of R of the amine, i.e. see the definition of R within the definition of R₁, R₂, R₃, R₄, R₅ and within the definition of R₇, R₈, R₉, R₁₀, R₁₁, R₁₂, R₁₃ and R₁₄.
- d) Claim 10 is vague and indefinite in that it is not known what is meant by "hexoses" under the formula on page 31.
- e) Claim 16 is vague and indefinite in that it is not known what is meant by "DMT-derivative" which implies more than what is positively recited.
- f) Claims 18-21 are vague and indefinite in that it is not known what is meant by "analog" of pentostatin, which implies more than what is positively recited.
- g) Claims 18-21 are vague and indefinite in that it is not known what is meant by "substituted imidazole".
- h) Claim 19 recites the limitation "to form a substituted imidazole compound" in the process employing the amino sugar intermediate. There is insufficient antecedent basis for this limitation in the claim.
